PROFESSIONAL SUMMARY

Computer Engineering student at the University of Buenos Aires, focused on software development, with professional experience in manual QA and personal web and backend projects. Knowledge of Elixir, Java, Vue, PostgreSQL, Git, and Docker.

PROFESSIONAL EXPERIENCE

Manual QA Tester (Freelance) — Testlio | February–August 2024

- Executed manual functional and regression tests for recurring releases of a video editing application, following predefined test cases.
- Managed test cases in TestRail, recording results and test execution evidence.
- Identified and reported defects in Testlio, documenting reproduction steps, observed behavior, devices, and test environments.
- Verified issues reported by other testers, assessed reproducibility, and communicated findings in English with the Test Lead.

SOFTWARE DEVELOPMENT PROJECTS

Echo — Real-Time Messaging Application | Elixir, Vue, PostgreSQL, Docker

- Developed a messaging application using concurrent Elixir processes to manage sessions and real-time communication.
- Built the frontend with Vue, implemented data persistence with PostgreSQL, and set up the development environment with Docker.

Blackjack API | Java

- Developed an API to simulate blackjack games using object-oriented programming.

My Marvel List — Movie Rating Web Project | HTML, CSS, JavaScript, SQLite, Node.js

- Developed a web application to track and rate movies.

El Gordo Alfajores — Experimental Web Project with AI Agents | React, .NET

- Experimented with building a web application to track and rate alfajores, using AI agents to generate much of the code and explore this development workflow.

TECHNICAL SKILLS

Languages: Elixir, Java, C, JavaScript; Python (basic).
Web and data: Vue, HTML, CSS, PostgreSQL, SQL.
Tools and concepts: Git, Docker, Linux, OOP, design patterns.

EDUCATION

Computer Engineering — School of Engineering, University of Buenos Aires | 2021–present

LANGUAGES

English: Advanced (professional working experience).
Japanese: Basic (estimated JLPT N5 level).

AVAILABILITY

Part-time | Full-time
